Average Weighted Average Maturity (1)	)* 52 Days
Average Weighted Average Maturity (2)	)* 63 Davs

#### Definition of Weighted Average Maturity (1) & (2)

(1) This weighted average maturity calculation uses the SEC Rule 2a-7 definition for stated maturity for any floating rate instrument held in the portfolio to determine the weighted average maturity for the pool. This Rule specifies that a variable rate instrument to be paid in 397 calendar days or less shall be deemed to have a maturity equal to the period remaining until the next readjustment of the interest rate.

2) This weighted average maturity calculation uses the final maturity of any floating rate instruments held in the portfolio to calculate the weighted average maturity for the pool.

\* The maximum management fee authorized for the TexSTAR Cash Reserve Fund is 12 basis points. This fee November be waived in full or in part in the discretion of the TexSTAR co-administrators at any time as provided for in the TexSTAR Information Statement.

Rates reflect historical information and are not an indication of future performance.

# **Holiday Reminder**

In observance of the Christmas holiday, **TexSTAR will be closed Wednesday**, **December 25**, **2013**. All ACH transactions initiated on Tuesday, December 24th will settle on Thursday, December 26th.

In observance of the New Year's Day holiday, **TexSTAR will be closed Wednesday, January 1, 2014**. All ACH transactions initiated on Tuesday, December 31st will settle on Thursday, January 2nd.

Notification of any early transaction deadlines on the business day preceding the holiday will be sent by email to the primary contact on file for all TexSTAR participants. Please plan accordingly for your liquidity needs.

## **Economic Commentary**

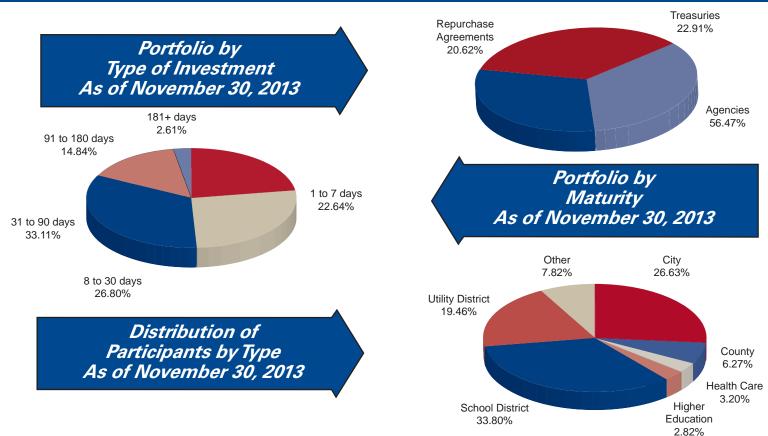

Most fixed income risk markets rose over the month and the Standard & Poor's 500 Index reached a new record high. Longerterm Treasury yields increased as stronger economic data led market participants to speculate that the Fed could begin reducing its asset purchase program as early as December. However, Janet Yellen's confirmation hearing before the Senate Banking Committee to become the Federal Reserve's first chairwoman reflected a continuation of accommodative policy going forward. She stated her preference to remove accommodation cautiously and that she still expects the first reduction in the pace of asset purchases to occur at the Fed's March meeting, likely accompanied by a strengthening of forward rate guidance. The minutes of the Fed's October meeting reaffirmed its view that growth is reviving as the negative effects from the government shutdown have been less than feared. Additionally, the Fed appears to be ready to shift away from asset purchases and towards a policy framework dependent on forward guidance. At the same time, investors seem to have become more comfortable with the Fed's "tapering isn't tightening" message.

With the return of regular economic data reporting this month, some sectors – e.g., labor markets – showed strength, while others, such as manufacturing, started to slow. Forward-looking indicators point to U.S. economic growth that is still too weak to support a self-sustaining recovery. Loan growth is decelerating, increasing downside risks for economic growth in the near future. Corporate profit growth remains lackluster. Momentum from the housing sector should decelerate, with housing less affordable now relative to earlier this year due to rising home prices and higher mortgage rates limiting the contribution of residential spending to GDP. The future trajectory of fiscal policy remains highly uncertain. A committee of Senators and Representatives is scheduled to present a budget deal in the next few weeks, because the current Continuing Resolution is set to expire in January 2014. The drag from fiscal cuts on economic growth is expected to be below that experienced in 2013. Income taxes are not expected to increase as much as last year; and, with the low base for gasoline prices, consumption could experience a moderate, although limited, boost. Early reports from Thanksgiving weekend retail sales indicate modest growth, but the shorter-than-usual holiday period means that consumers will need to accelerate spending to surpass last year's levels.

This information is an excerpt from an economic report dated November 2013 provided to TexSTAR by JP Morgan Asset Management, Inc., the investment manager of the TexSTAR pool.

\$ 4,358,933,052.64

Market value of collateral supporting the Repurchase Agreements is at least 102% of the Book Value. The portfolio is managed by J.P. Morgan Chase & Co. and the assets are safekept in a separate custodial account at the Federal Reserve Bank in the name of TexSTAR. The only source of payment to the Participants are the assets of TexSTAR. There is no secondary source of payment for the pool such as insurance or guarantee. Should you require a copy of the portfolio, please contact TexSTAR Participant Services.

# **TexSTAR versus 90-Day Treasury Bill**

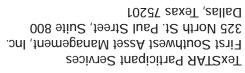

90 Day T-Bill Rate TexSTAR Rate

This material is for information purposes only. This information does not represent an offer to buy or sell a security. The above rate information is obtained from sources that are believed to be reliable; however, its accuracy or completeness November be subject to change. The TexSTAR management fee may be waived in full or in part at the discretion of the TexSTAR co-administrators and the TexSTAR the period shown reflects waiver of fees. This table represents investment performance/return to the customer, net of fees, and is not an indication of future performance. An investment in the security is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although the issuer seeks to preserve the value of an investment at \$1.00 per share, it is possible to lose money by investing in the security. Information about these and other program details are in the fund's Information Statement which should be read carefully before investing. The yield on the 90-Day Treasury Bill ("T-Bill Yield") is shown for comparative purposes only. When comparing the investment returns of the TexSTAR pool to the T-Bill Yield, you should know that the TexSTAR pool consist of allocations of specific diversified securities as detailed in the respective Information Statement which should be then current 90-day T-Bill.
