Presented is the Mobility Authority's proposed FY 2017 Operating Budget. This document contains revenue estimates and departmental spending plans for the fiscal year beginning July 1, 2016 and ending June 30, 2017. The total proposed operating revenues are \$71,967,456. Total proposed operating expenses are \$94,838,997 inclusive of \$32,332,621 in non-cash items such as amortization, depreciation, bond issuance expense and accreted interest. In addition, this document includes the Authority's Operating Capital Budget, System Operating Budget and the Renewal and Replacement Fund Budget for FY 2017.

As discussed below, this budget is influenced by several factors including the Mobility Authority Strategic Plan, projects under development, under construction and ongoing, the population growth in the region, and maintaining and improving current service levels.

Strategic Plan

Economic Vitality >Develop projects and programs that federal, state, regional and local econ development strategies >Lead regional efforts to increase tra- capacity and reliability particularly in areas and desired development zone	t support nomic ansportation n congested	>Advocate and modes of regio options >Provide highl	egional Mobility I/or develop reliable, efficient onal multimodal transportation y reliable and appropriately gional roadway network
>Partner with regional entities to facilitate economic development Initiatives driven by mobility and transportation Sustainability	Improv	g Force for ed and le Mobility al Texas	Innovation
 >Define, use and advocate for environ sound design and construction methods >Build, maintain and operate assets preservation and reliability >Increase public awareness of environ benefits related to improved mobility 	hods for for long-term onmental	management a >Implement th management o Central Texas >Enhance the	increased transportation and funding options ne most efficient and cost effective of transportation facilities in customer experience through lity Authority communication and

The Strategic Plan serves as a guiding document in the operations of the Mobility Authority and in the development of the proposed FY 2017 budget. The Plan summarized in the graphic states the Mobility Authority's vision for 2025 and establishes goals in context of four strategic initiative areas – Economic Vitality, Regional Mobility,

Sustainability and Innovation. While all are interconnected, each initiative contains the stated goals for that area. For this budget, located in the departmental narrative sections, each department has articulated a Strategic Plan connection between their FY 2016 accomplishments and their goals for the upcoming fiscal year.

<u>Revenues</u>

Revenue estimates for FY 2017 are proposed at \$72.0 million which is an approximate 9% increase over FY 2016 budget. The revenue estimate was developed using the current traffic and revenue projections appropriate for the fiscal year spanning July 2016 through June 2017, modified by an increase of approximately 5% to reflect the actual results over and above the T&R projections that CTRMA has been realizing. In comparing historical results for both 183A and the Manor Expressway, the Authority believes these projections are conservative and achievable. The revenue budget also includes \$.7 million in grant funds for the HERO (roadside assistance) program. Also included are non-system revenue from MoPac Managed Lanes and 71E of approximately \$2.7 million. (Note: the revenue estimate does not reflect any possible fiscal year 2016-2017 Board approved toll rate increase.)

Expenses

Expense estimates for FY 2017 are proposed at \$95.0 million which represents a 3% increase over the FY 2016 budget. Because the Authority reports on an accrual basis, included in the expense estimates is \$32.3 million in non-cash expense items such as amortization, depreciation, bond issuance expense accruals and accreted interest expense. The increased expense budget is primarily due to the communications and community outreach, increased roadway maintenance contract, and increases in non-cash items such as depreciation expense.

The remaining expense line items were developed in line with current operating goals and objectives as established by the Board of Directors through the Strategic Plan and Executive Director.

Operating Capital Budget, Renewal and Replacement and Capital Projects

The proposed operating Capital Budget includes funding for a replacement vehicle for maintenance, the replacement of the high user copier, upgrades to desk top computing for staff, and build-out of a wall to enclose additional space needed for occasional office and conferencing space.

The Capital Projects schedule reflects current and future construction projects the Mobility Authority is developing. Each of these projects is in various stages of development and may have various sources of funding which are identified in the schedule included in this document.

Future Projections, Cash Flow and Debt Service Coverage

Cash flow will be monitored closely as the Authority moves into full operations of MoPac Managed Lanes and 71E. While the projected expenses in the proposed budget exceed estimated revenues, when non-cash expenses are removed and other funding sources are considered, the current projections result in a net cash inflow of \$13.7 million at the end of FY 2017 after application of the Mobility Authority's cash operating reserve policy. The cash flow projections are utilized to anticipate cash flow requirements as well as ensure the Authority remains in compliance with trust indentures, debt service coverage requirements and cash reserve policies. The FY 2017 proposed budget provides for debt service coverage levels above the requirements of the trust indentures.

Unrestricted Cash Reserves

The Board of the Mobility Authority has a policy of maintaining unrestricted cash reserves to cover twelve months of cash expenses. It further allows the Executive Director to lower the requirement to nine months should he deem it in the best interest of the Authority and will not adversely affect the financial stability of the organization. As discussed in previous budget documents, when new projects come on line it may take the Authority a few years to build up the reserves to cover a full year of cash expenses. The proposed FY 2017 budget will remain in compliance with the Board policy of maintaining unrestricted cash reserves to cover 12 months of cash expenses. However, in future years as the debt service is phased in, the Authority will need to continue to build the reserves to cover the future expenses.

The primary role of the Administration Department is oversight and daily management of the Mobility Authority's projects and activities. In addition to the Executive Director, this department includes the Deputy Executive Director, Executive Assistant and Receptionist.

Under the direction of the Executive Director, this department is responsible for advancing the Mobility Authority's strategic mission and objectives. Serving as a direct liaison with governmental agencies and entities addressing transportation issues throughout the Central Texas region, the Executive Director serves as the primary communicator and provides information and available resources to assist in the development and implementation of the region's mobility plans and projects.

The Administration Department also provides front-line customer service to the general public, all customers and elected officials who contact the Mobility Authority.

Major Business Functions:

<u>Board of Directors:</u> Provide administrative support for the Mobility Authority's Board of Directors.

<u>Office of the Executive Director</u>: Oversight and daily management of the Mobility Authority's projects and activities.

FY 2016 Highlights and Accomplishments:

- 183 South Expressway Project completed procurement of a design build contractor, secured funding, and started construction. *Strategic Initiatives: Economic Vitality, Regional Mobility, and Sustainability*
- 183 North Mobility Project (Loop 1 to SH 45 / RM 620) completed environmental phase and received a Finding of No Significant Impact (FONSI) on April 27, 2016. *Strategic Initiatives: Economic Vitality, Regional Mobility, and Sustainability*
- MoPac Improvement Project (Cesar Chavez to Parmer) reset construction and made significant progress toward project completion. *Strategic Initiatives: Economic Vitality, Regional Mobility, and Sustainability*
- MoPac South Environmental Study (Slaughter to Cesar Chavez) made significant progress on the environmental phase. Conducted a number of

meetings with stakeholders in addition to a major public meeting. *Strategic Initiatives: Economic Vitality, Regional Mobility, and Sustainability*

- SH 45 Southwest Project completed design phase, secure funding, submit for authorization to construct, and procure bid build contractor. *Strategic Initiatives: Economic Vitality, Regional Mobility, and Sustainability*
- SH 71 Express TxDOT procured contractor and started construction. *Strategic Initiatives: Economic Vitality, Regional Mobility, and Sustainability*
- Oak Hill Parkway continued work on the environmental phase. Strategic Initiatives: Economic Vitality, Regional Mobility, and Sustainability
- Park and Ride initiated a collaborative coordinated regional effort with the Capital Area Metropolitan Planning Organization (CAMPO), Capital Metropolitan Transportation Authority (CapMetro), and CTRMA to identify and advance park and ride locations throughout the region. *Strategic Initiatives: Economic Vitality, Regional Mobility, Sustainability, and Innovation*
- Changed the organizational reporting structure of the Communications, Engineering, and Toll Operations Departments to report to the Deputy Executive Director. *Strategic Initiative: Innovation*
- Recruited and retained new executive leadership, communications, engineering, and technical staff to align with the new organizational structure, and replace retiring staff. *Strategic Initiative: Innovation*

FY 2017 Overview and Goals:

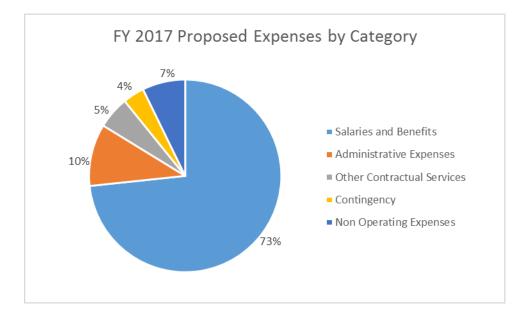

- 183 South Expressway Project continue significant progress on construction. *Strategic Initiatives: Economic Vitality, Regional Mobility, and Sustainability*
- 183 North Mobility Project (Loop 1 to SH 45 / RM 620) develop implementation plan and secure funding to advance design and construction. *Strategic Initiatives: Economic Vitality, Regional Mobility, and Sustainability*
- MoPac Improvement Project (Cesar Chavez to Parmer) open express lanes to traffic and complete construction. *Strategic Initiatives: Economic Vitality, Regional Mobility, and Sustainability*

- MoPac South Environmental Study (Slaughter to Cesar Chavez) complete the environmental phase and develop an implementation plan and secure funding. *Strategic Initiatives: Economic Vitality, Regional Mobility, and Sustainability*
- SH 45 Southwest Project procure bid build contractor and start construction. *Strategic Initiatives: Economic Vitality, Regional Mobility, and Sustainability*
- SH 71 Express open express lanes and complete construction. *Strategic Initiatives: Economic Vitality, and Regional Mobility*
- Oak Hill Parkway complete environmental process. *Strategic Initiatives: Economic Vitality, Regional Mobility, and Sustainability*
- Park and Ride identify and secure park and ride locations along CTRMA corridors. Support CAMPO and CapMetro regional study and planning initiative.
- Develop future projects and program plan.
- Remain a resource on regional mobility issues and a steadfast advocate for shortand long-term transportation solutions. *Strategic Initiatives: Regional Mobility, Innovation*

The primary role of the Financial Services Department is to provide financial leadership and oversight of the Mobility Authority. Under the direction of the Chief Financial Officer (CFO), the department is responsible for recommending and communicating strategic financial planning to the Executive Director and Board of Directors. The financial services department provides all accounting, financial, budgeting and debt management activities for the Authority.

Major Business Functions:

Financing: Provide direction and leadership on all Mobility Authority project financing.

<u>Budget:</u> Develop, propose and manage the Authority's annual budget.

<u>Accounting:</u> Responsible for maintaining all accounting records including processing payroll, accounts payable, reconciling records and monthly and annual financial reporting. Provide all operating and capital project accounting. Assist external auditors with annual financial and compliance audits.

<u>Treasury:</u> Responsible for cash management and investment of all Authority funds. Work closely with Trustee to manage cash flow and invest funds in accordance with the Texas Public Funds Investment Act and the Authority's Investment Policy. Maintain close working relationship with bank providers.

Human Resources: Provide human resources support for Mobility Authority staff.

FY 2016 Highlights and Accomplishments:

- Secured TIFIA loan, TxDOT loans, and issued revenue bonds needed to finance the 183S (Bergstrom Expressway) project. *Strategic Initiative: Innovation*
- Secured Refunding for select 2010 and 2011 bonds within the parameters approved by Board action, achieving gross savings of approximately \$62.7 million or 12.7%. *Strategic Initiative: Innovation*
- Upgraded the Authority's financial accounting systems to take advantage of newer technology and improve financial reporting for operations and capital projects by implementing the workflow approval process, minimizing the need for paper documents and creating online approval access. Additionally, implemented a scan and attach process in the accounting system of invoices to payments, creating an automatic audit trail and an online repository for documents previously maintained in paper files. *Strategic Initiative: Innovation*

CENTRAL TEXAS Regional Mobility Authority

Finance

- Performed all Human Resource related activities to successfully process eleven new hires, one promotion, and four departures from the CTRMA staff. *Strategic Initiative: Innovation*
- Received upgraded revenue bond rating from S&P in October for the senior revenue bonds and, received an upgrade in May 2016 on the 2015C TIFIA loan. *Strategic Initiative: Innovation*

FY 2017 Overview and Goals:

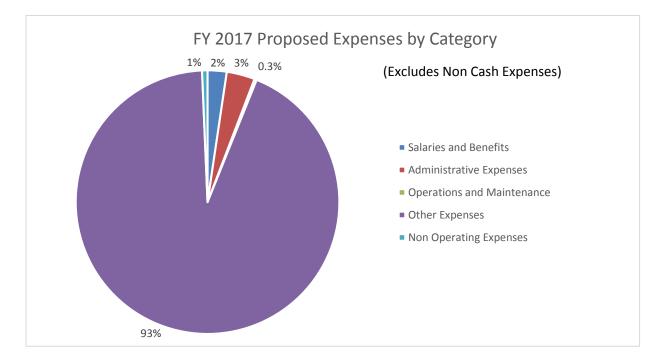

- Continue the development of new funding mechanisms for the Authority's projects. *Strategic Initiative: Innovation*
- Maintain and work to improve rating agencies ratings and reporting transparency and compliance. *Strategic Initiative: Innovation*
- In conjunction with toll operations, continue to develop and implement processes to reduce toll collection costs. *Strategic Initiative: Innovation*

The Operations Department is responsible for all aspects of toll collection operations and toll systems maintenance. The Operations Department aligns with many of the Mobility Authority's strategic goals and initiatives. These include regional mobility, economic vitality, sustainability and innovation.

Major Business Functions:

The department is comprised of six (6) major areas. These areas are described below. Information Technology: Ensure the integrity of the Mobility Authority's computers, storage, network and other physical devices, infrastructure and processes used to create, process, store, secure and exchange all forms of electronic data.

<u>Road Maintenance:</u> Define the appropriate levels of roadway maintenance that will drive the estimated maintenance costs for any given project over the life of any debt and beyond. Assess roadway conditions and estimate maintenance cost needs for the next fiscal year. Provide oversight for all maintenance activities performed on Authority roadways or other assets.

<u>Toll Facility Maintenance:</u> Perform activities required to keep spaces, structures, and infrastructures in proper working condition to prevent failure and degradation. These activities include those related to campus and building maintenance for the Mobility Authority Field Office Building.

<u>Toll Collection & Violation Enforcement:</u> Manage the contract that provides Pay-by-Mail processing, customer support and violation processing.

Toll Systems: Manage new toll collection system installation, oversee daily operation of the electronic toll collection systems operations. Monitor system performance and transaction reconciliation. Oversee system maintenance to ensure accuracy and dependability.

<u>Traffic & Incident Management:</u> Coordinate the resources of partner agencies and private sector companies to detect, respond to, and clear traffic incidents as quickly as possible to reduce the impacts of incidents on safety and congestion, while protecting the safety of on-scene responders and the traveling public. This includes managing the third party Agreements that provide law enforcement services, courtesy patrol, traffic management and incident response for Mobility Authority facilities.

FY 2016 Highlights and Accomplishments:

In fiscal year 2016 the Operations Division continued preparations for the opening of the MoPac Express Lanes, the organization's first managed toll facility.

Completed work on the Authority's traffic management center which is intended to be the hub for MoPac's variable tolling process and the organization's incident management activities. *Strategic Initiatives: Regional Mobility, Innovation*

Achieved additional reductions in image review costs. *Strategic Initiatives: Economic Vitality, Innovation*

Made significant progress toward regional and national toll interoperability. *Strategic Initiatives: Regional Mobility, Economic Vitality, Innovation*

Continued to enhance customer communications within the Pay By Mail program to facilitate easier payment. *Strategic Initiatives: Economic Vitality, Innovation*

FY 2017 Overview and Goals:

The Operations department's primary goals include the successful installation and integration of the Mobility Authority's toll projects and continued efforts to decrease costs through improvements to revenue collection techniques.

Continue the deployment of intelligent transportation system (ITS) technology on Mobility Authority facilities and the integration of that system into other regional centers.

Investigate the application of trip building to other Mobility Authority toll facilities in an effort to decrease tag collection costs.

Mitigate revenue leakage through an enhanced approach to violation enforcement. Continue efforts towards regional and national toll interoperability.

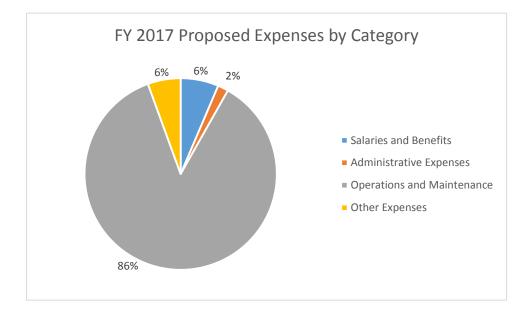

Continue partnerships with other Texas Regional Mobility Authorities.

Communications

The primary role of the Communications Department is the development and facilitation of programs that advance the mission of the agency through strategic interaction with customers, stakeholders, state legislators and the media. These efforts are classified into four general areas of specialization that include public relations and communication, community development and outreach, government relations, and marketing.

Major Business Functions:

<u>Public Relations and Communications</u>: The business function of public relations involves the strategic communications process that builds mutually beneficial relationships between the Mobility Authority and its publics. Publics include customers, strategic partners, governmental organizations, community and civic groups, citizens as well as the general public. Activities include key message development, media relations, development of communication tools such as publications, presentations, collateral material, videos, websites, and social media to inform and educate customers and stakeholders about the transportation issues in the region and the work of the Mobility Authority to help relieve those.

<u>Community Development and Outreach/Government Relations:</u> Provide public outreach direction and support on all Mobility Authority projects under development, represent the agency's interests in these projects and maintain working relationships with all stakeholders including government entities, neighborhoods, community organizations and the general public.

<u>Marketing</u>: Activities in the marketing area revolve primarily around the strategic communication of the Mobility Authority and its facilities including 183A Toll, 290 Toll (Manor Expressway) and in the coming fiscal year, MoPac Express Lanes. Activities include the education of the public on the benefits and cost savings of electronic tags. In addition, efforts also include the communications support of ongoing projects and activities such as Environmental Studies and projects under construction.

FY 2016 Highlights and Accomplishments:

- Expanded the agency's first graphic standards and guidelines manual to ensure a consistent look and feel for the Mobility Authority and integrate that into ongoing Environmental Studies, and key strategic partnership activities. *Strategic Initiatives: Regional Mobility, Innovation*
- Implemented successful programs like Road Rewards (a rewards program for frequent toll users), TreeFolks Partnership, and Ice Cream Truck Social as part of

innovative efforts to manage community expectations during construction of MoPac Improvement Project. *Strategic Initiatives: Regional Mobility, Innovation*

- Provided ongoing communications support and crisis communications for the construction MoPac Improvement Project, MoPac South and SH 45SW Projects. *Strategic Initiatives: Regional Mobility, Innovation Economic Vitality*
- Significantly increased the Mobility Authority's social media presence via Facebook and Twitter with targeted messages and posts aimed to engage more followers and fans. *Strategic Initiative: Innovation*
- Conducted media relations outreach with targeted print, online and broadcast journalists, editors, managers and publishers to create mutually beneficial relationships and educate the media and the public about regional mobility initiatives as well as establish an executive voice for the Mobility Authority as a trusted and innovative transportation leader. Made substantial progress with local media outlets and plan to continue educating the public on transportation solutions and the Mobility Authority's role as a leader in regional mobility innovation. *Strategic Initiatives: Regional Mobility*
- Planned and executed a groundbreaking ceremony for the 183 South Project that resulted in more media coverage than any previous Mobility Authority project. *Strategic Initiatives: Regional Mobility*

FY 2017 Overview and Goals:

- Coordinated communications for the development phase for MoPac South, SH 45 SW and assist with Oak Hill Parkway; and the transitioning of these projects into design and construction. *Strategic Initiative: Regional Mobility, Innovation*
- Remain a valuable resource on regional mobility issues and a steadfast advocate for short- and long-term transportation solutions. Our communication strategy will provide a mechanism for keeping Central Texans informed of the latest in transportation technology and solutions that will help relieve congestion and improve quality of life. *Strategic Initiatives: Regional Mobility, Innovation*
- Rebuild the Mobility Authority website's design and content to reflect key messaging and incorporate customer-facing product information about Express Lanes on MoPac; also work to enhance search engine optimization and metrics. Our website has already been cited as a standard for transparency among the financial community. We plan to take that a step further to become the go-to resource for all transportation topics. *Strategic Initiatives, Innovation, Regional Mobility*
- Develop customer rewards programs to educate the public on the benefits and potential costs savings of electronic tags and ultimately enhance electronic tag

usage. With a more robust communication strategy in place, we will inform the public on how securing an electronic tag can provide savings to help them efficiently get to where they need to go. The communications strategy (which will incorporate outlets such as: website, bill inserts, and all other communication materials) will help to increase penetration of electronic tags and improve compliance. *Strategic Initiatives, Innovation, Regional Mobility*

- Continue to implement programs designed to maintain positive relationship with community leaders, drivers, and neighbors regarding construction activities for the MoPac Improvement Project and 183 South Project. Implement educational and outreach activities related to opening and operation of the MoPac North Express Lanes. *Strategic Initiatives: Regional Mobility, Economic Vitality, Innovation*
- Continue community outreach program for construction projects such as the MoPac Improvement and 183 South. The outreach program includes activities designed to establish positive relationships with community leaders, drivers and nearby stakeholders/residents. Our outreach strategy will result in faster, more robust responses to community/key stakeholder requests/inquiries and ensure that we keep the public informed. *Strategic Initiatives: Regional Mobility, Economic Vitality, Innovation*
- Identify opportunities to enhance awareness of the Mobility Authority and our commitment to safety on existing roadways (signage, customer appreciation activities, etc.). *Strategic Initiatives: Regional Mobility, Innovation*
- Conduct "Quality of Life" Research in both Austin and additional markets as a point of comparison. The result will be a foundation of communications that will position CTRMA as thought leaders in innovative transportation solutions, help educate the Central Texas community of who CTRMA is and how we plan to help relieve congestion in the region and improve overall quality of life for Central Texans. *Strategic Initiatives: Regional Mobility, Economic Vitality, Innovation*

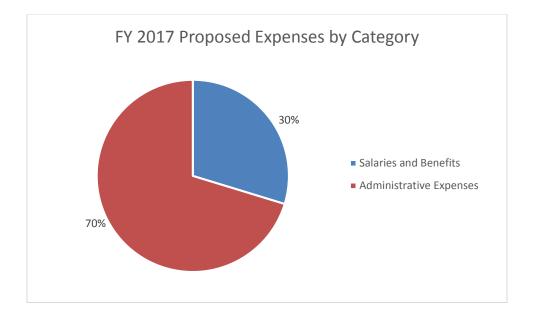

Key Measurement Indicators:

- Increase Mobility Authority and individual project website visitors and time spent on site – plan to establish benchmarks and track monthly
- Increase social media followers, likes and brand ambassadors that can help inform and discuss the positive things that the Mobility Authority is doing in the region – plan to establish benchmarks and track monthly
- Increase awareness for CTRMA and positive perception plan to establish benchmarks as part of the research and track after brand messaging is initiated
- Develop and adhere to a crisis communications plan and process
- Establish and continue elected official/key stakeholder outreach regarding key mobility issues in the region
- Communications support for legislative session
- Track and report quarterly on earned media
- Working with Ops to overhaul billing communications track success through customer feedback
- Help establish and execute communications strategy for Mobility Authority programs such as Green Roads, HERO, Metropia, Road Rewards
- Stakeholder/Community Meetings
- Open Houses/Workshops
- Plan and execute monthly staff meetings and initiative and establish cross department training program

The Law Department exists to provide trusted legal advice and counsel to support and advance the mission of the Mobility Authority. The General Counsel and Legal Assistant work with the Board of Directors, the Executive Director, staff, and consultants to anticipate, identify, consider, and respond to legal issues. The Law Department provides information, advice, and guidance on compliance with applicable laws and represents the Authority's interests in its relationships with customers, other agencies, consultants, vendors, and the public. The Law Department coordinates and collaborates with outside counsel to provide resources and expertise to support the Mobility Authority's projects, programs, and operations.

Major Business Functions:

- Identify, research, and advise the Board, Executive Director, and staff on legal issues that arise in connection with Mobility Authority operations and functions.
- Ensure that the Board and management receive timely, sound legal advice concerning compliance with laws and regulations.
- Coordinate, review, and prepare the agenda and backup materials for Board meetings.
- Draft, review, and advise on documents that implement Mobility Authority programs and operations, including:
 - Resolutions and policy code provisions enacted by the Board;
 - Procurement documents such as bid solicitations, requests for information, requests for qualifications, requests for proposals, and other related documents;
 - Contracts with vendors and interlocal agreements other government agencies;
 - Documents required by open government and ethics laws, including responses to requests for public information and disclosures of conflicts of interest and personal financial information.
- Advise on the implementation, construction, and application of existing agreements and legal issues that may arise under those agreements.
- Collaborate with Mobility Authority staff and court officials in Williamson and Travis Counties to continuously improve toll collection and enforcement practices and strategies.
- Assist in managing Mobility Authority records and document retention systems to ensure compliance with legal requirements and best practices.
- Manage the appropriate, efficient use of resources and expertise for legal services provided by outside counsel.

FY 2016 Highlights and Accomplishments:

- Supported the Executive Director, lobby team, and Mobility Authority staff in responding to questions and issues raised by proposals discussed in the 84th Legislature that could affect the Mobility Authority.
- Worked with representatives of the Veterans Administration to confirm a disabled veteran's eligibility to be reimbursed by the VA for tolls incurred when traveling to a VA facility for medical care; and to share that information on the Mobility Authority's website.
- Drafted and implemented an Open Records response management plan.
- Created forms and document templates to increase efficiency and best practices in Mobility Authority contracting and agenda preparation processes.

FY 2017 Overview and Goals:

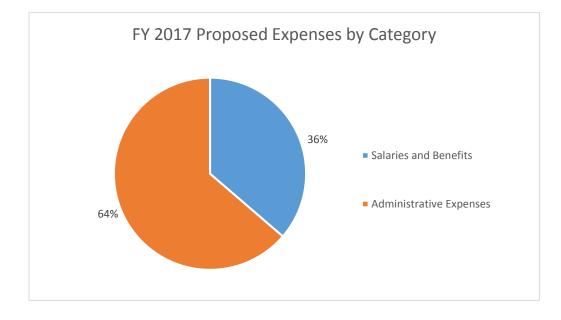

- Continue to manage and provide legal support for Mobility Authority governance, projects, and operations.
- Continue to create and revise document templates for contracting and agenda preparation processes.
- Provide support and focus strategies and procedures to improve toll collections by implementing creative enforcement strategies and methods authorized by state law, including procedures authorized by newly enacted state legislation.
- Continue to review, analyze, and recommend Policy Code revisions to comply with evolving legal requirements and best practices, and to provide necessary or desirable improvements.
- Research and possibly implement an improved document management application for housing Mobility Authority documents to complement other department applications.
- Explore and implement procedures with the Veterans Administration to facilitate and simplify the process for providing VA reimbursement to eligible disabled veterans of toll charges for travel to VA facilities for medical care.

Key Measurement Indicators:

- Meet applicable deadlines for requests for public information.
- Meet applicable requirements for open meetings.

The role of the Engineering Department is to serve as the central organizational hub for the development of major capital improvement projects, from concept through final construction acceptance. Secondarily, the Department plays a critical role in the identification and budgeting for facilities maintenance and asset preservation.

Major Business Functions:

<u>Project Inception and Feasibility</u>: Coordinate with other transportation providers in the region (TxDOT, Capital Area Metropolitan Planning Organization, City of Austin, Travis County, and Williamson County) to assure that mobility needs for the region are defined and included in the Long Range Transportation Plan. Provide feasibility analysis for selected projects to evaluate implementation priority.

<u>Project Development:</u> Accurately program and develop priority projects to the appropriate level for implementation based on coordination with stakeholders. Stakeholders would include external – federal and state agencies, local governments and the general public. Internal stakeholders would include the Board of Directors, the Executive Director, Legal Department, Financial Team, Toll Operations Department, General Engineering Consultants and Public Relations Department. The deliverable may include schematic level design, or more complete design as well as the appropriate level of environmental documentation and clearance.

<u>Project Implementation:</u> Determine the appropriate project delivery method and oversight to provide the Authority with a project of the highest quality that meets the financial and timing constraints. Work closely with Legal, Finance, and Toll Operations and Communications to develop construction documents meeting the agency mission and vision. Manage the construction of all agency projects through project final acceptance.

<u>Roadway Maintenance:</u> Develop a quantifiable definition of appropriate levels of roadway maintenance that will drive the estimated maintenance costs for any given project over the life of any debt and beyond. Develop the programmatic annual assessment of roadway conditions and estimated maintenance costs (needs) for the next fiscal year. Beginning in FY 2017, transition from direct oversight to a support role for the Toll Operations Department for all maintenance activities performed on Authority roadways and other assets.

FY 2016 Highlights and Accomplishments:

- Successful construction kickoff of a design-build developer for the 183(S) project. As of May 2016, the project is within 5% of the projected earned value, and construction began fully one month ahead of schedule. This is a significant accomplishment due to the extensive upfront utility efforts, and validates the implemented lessons learned from past projects. This project is the largest transportation improvement project in Central Texas in the past 10 years and has a major impact for mobility in the region. *Strategic Initiatives: Regional Mobility, Economic Vitality, Sustainability*
- Continued progress on the MoPac Improvement Project, including the successful negotiation of a cure settlement and significantly increased contractor efforts on the project. *Strategic Initiatives: Regional Mobility, Economic Vitality*
- Completion of final design and award of construction contract for the 290E / SH
 130 interim intersection improvements. Strategic Initiatives: Regional Mobility
- Successfully negotiated TxDOT commitment to funding participation in the upcoming \$130M 290E / SH 130 Direct Connectors project.
- Successfully completed construction of the 290E Maintenance facility.
- Actively negotiating TxDOT commitment to funding participation in the \$650M 183N Express Lanes project, with positive early indications.
- Led and completed, or are substantially completed with, the following procurements
 - 183S Construction Inspection
 - 183S Materials Testing
 - 183S Survey Quality Assurance
 - 183S Public Involvement
 - 290E / SH 130 Direct Connectors PS&E
 - General Engineering Consultant
 - SH 45 SW Construction Engineering and Inspection
 - SH 45 SW Independent Environmental Compliance Management
 - Extensive coordination and support of Toll Operations group on the Highway Emergency Response Operator (HERO) procurement
- Successful implementation of the Performance-Based Maintenance Contract with TxDOT starting January 2016, whereby the Mobility Authority is responsible for routine maintenance activities on all Mobility Authority roadways, as well as TxDOT on-system frontage roads. This arrangement allows the Authority to procure and oversee the contract and have TxDOT reimburse the Authority for its pro-rata share of routine maintenance. *Strategic Initiatives: Sustainability, Innovation*

- Obtained final environmental clearance for the 183N Express Lanes project. Successfully amended the CAMPO plan to reflect the updated total project cost from \$225M to \$650M, an action that required significant coordination and regional outreach to bring to a successful conclusion. Strategic Initiative: Mobility, Sustainability, Economic Vitality
- The Mobility Authority is the primary agency performing a lead role for environmental clearance of the MoPac South Express Lanes. *Strategic Initiative: Mobility, Sustainability, Economic Vitality*
- Significant progress continues on the remaining 3 environmental studies we have partnered with TxDOT to accomplish; US 290 at the "Y", SH 71(E), and 45(SW). *Strategic Initiative: Sustainability, Mobility, Economic Vitality*
- Coordinated and implemented significant new outreach efforts with the Association
 of General Contractors, in an effort to engage industry and ultimately lower project
 costs. This effort culminated in the April 2016 kickoff meeting of the joint CTRMA
 / AGC Task Force, co-chaired by the RMA Director of Engineering. The task force
 will meet on a quarterly basis to exchange information and provide a platform for
 aligning RMA goals with construction industry expectations.

FY 2017 Overview and Goals:

- Long-Range Planning Continue initial due diligence investigations and/or conceptual and feasibility analysis on the following projects:
 - 183A Phase III Hero Way to San Gabriel River
 - 183A Future San Gabriel River to SH 29
 - IH 35/SH 45 North Direct Connects
 - 183A Frontage Roads RM 1431 to Avery Ranch Boulevard
 - RM 620 US 183 to Anderson Mill Lane
 - RM 2243 River Bow Dr to 183A
 - 290E Phase III Parmer Lane to FM 973(N)
 - Mokan ROW / transportation corridor north of SH 45 North
- Project Development Hold final Public Hearings or receive Environmental Record of Decisions on the following projects under development:
 - MoPac South Managed Lanes 290W/Y-at Oak Hill
- Construction
 - Construction kickoff or continued progress on the following construction projects:
 - 290E / SH 130 Direct Connectors
 - 183 South
 - SH 45 SW

- $\circ~$ Achieve substantial / final completion of the following construction projects:
 - 290E / SH 130 Interim Improvements
 - MoPac North
 - 290E Phase II
 - SH 71 Express
- Successful handoff and support of the Toll Operations Department of the Performance-Based Maintenance Contract oversight. *Strategic Initiative: Sustainability, Innovation*
- Continue the process of lessons learned full circle through listening sessions with industry to find more effective ways to deal with designers, construction contractors and design-builders. *Strategic Initiative: Innovation, Sustainability*
- Define and kickoff implementation of a CTRMA Program Management Initiative, with an overarching goal of defining RMA Capital Planning Program and Project development processes, procedures, accountability and continuous improvement activities. *Strategic Initiative: Innovation, Sustainability, Cost Control, Continuous Improvement, Accountability*
- Define segregated roles and responsibilities for the two GEC firms with respect to roadway operations. This will create a distinction between the firm that assesses repairs and the firm that is responsible for oversight of the repairs. *Strategic Initiatives: Innovation, Sustainability*
