

**CENTRAL TEXAS  
Regional Mobility Authority**

## AGENDA ITEM #10 SUMMARY

---

Approve an amendment to the Policy Code relating to the investment policies.

Strategic Plan Relevance: Regional Mobility

Department: Finance

Associated Costs: None

Funding Source: None

Board Action Required: Yes

Description of Matter:

The Public Funds Investment Act (PFIA) requires governing bodies to annually adopt its investment policy. The only change to the policy we are recommending this year is allowing the maximum maturity for individual securities to be up to 5 years to the extent cash flows allow. Any maturity greater than 5 years would require Board approval.

## Exhibit 1 to Resolution 14-\_\_\_\_\_

### Proposed Revision to Section 201.009 of the Policy Code:

#### **201.009 Investment Strategies**

(a) The authority's investment portfolio shall be designed with the objective of obtaining a rate of return throughout budgetary and economic cycles, commensurate with the investment risk constraints and the cash flow needs.

(b) Market Yield Benchmark: The authority's investment strategy is conservative. Given this strategy, the basis used by the chief financial officer to determine whether minimum market yields are being achieved shall be the six month T-bill rate. Investment Officers and Investment Advisors shall strive to safely exceed minimum market yield within policy and market constraints.

(c) Maximum Maturities: To the extent possible, the authority will attempt to match its individual investments with anticipated ~~project~~ cash flow requirements. ~~Unless matched to a specific cash flow, the authority will not directly invest operating or general funds of each fund. However, in securities maturing more than 16 months from the date of purchase no instance shall the maximum stated maturity of an individual investment exceed five years,~~ unless approved by the board. ~~Investment of bond proceeds shall not exceed the projected expenditure schedule of the related project.~~

~~Reserve funds may be invested in securities exceeding 12 months if the maturity of such investments are made to coincide as nearly as practicable with the expected use of the funds.~~
