March 2025

In this newsletter:

[2024 Annual Report](#) | [Spring Savings](#) | [Women's History Month](#)

Happy Spring, Central Texas. Now is the perfect time to reflect, reset, and accelerate forward. See how the Mobility Authority is embracing the spirit of the season by reflecting on key accomplishments and continuing to drive progress forward across our region.

More Than Miles: 2024 Annual Report

As we continue to move through 2025, we reflect on the progress made in 2024. The Mobility Authority is pleased to share our [2024 Annual Report](#), highlighting key achievements in delivering reliable mobility solutions. From expanding capacity on major corridors to advancing environmental studies, this year's report showcases our commitment to shaping the future of Central Texas mobility.

Key highlights include:

- The opening of the [Barton Skyway Ramp Relief Project](#)
- Continued progress on [183A Phase III](#)
- Hosting the sixth Open House for the [MoPac South Environmental Study](#)
- The early opening of a non-tolled travel lane on the [183 North Mobility Project](#)

Explore the full report to see how we're driving innovation and enhancing connectivity across the region.

Spring Savings

Spring is often associated with new beginnings and fresh starts. If you're looking to refresh your routine, now is the time to do it —starting with your commute. Switching to an electronic tag saves you 33% on tolls and helps you eliminate paper bills. Whether you have an in-state or out-of-state tag, we accept a variety of options to make your travels smoother.

An electronic tag makes traveling easier by automatically paying tolls as you drive, saving you time and money. Signing up is simple: choose any accepted electronic tag provider and mount the tag inside your windshield. As you drive on a tolled road, an overhead reader scans your tag, and the toll is automatically deducted from your account—no paper bills, no hassle.

Streamline your commute, save money, and skip the paper clutter—it's a win-win.

CELEBRATING WOMEN'S HISTORY IN TRANSPORTATION

CENTRAL TEXAS REGIONAL
MOBILITY AUTHORITY

Women's History Month

March is Women's History Month—a time to celebrate the trailblazing women who have shaped the transportation industry. From Emily Warren Roebling, who played a pivotal role in completing the Brooklyn Bridge, to Mary Anderson, the inventor of windshield wipers, women have been driving progress in mobility for generations. Their contributions have paved the way for safer, more efficient travel and continue to inspire the future of transportation and infrastructure.

As we move forward, let's honor their legacy by reading, learning, and sharing the stories of women who have transformed how we move through the world.
