## Safety Takes the Wheel This Summer

Safety is in the spotlight this month as the [International Bridge, Tunnel and Turnpike Association \(IBTTA\)](#) launches its third annual Global Road Safety Week. This year's theme, "Put Your Mind in Drive", highlights the dangers of distracted driving and the importance of staying focused behind the wheel.

From cell phones and navigation systems to fatigue and everyday distractions, even a moment of inattention can have lasting consequences. From June 22 to June 26, daily themes will focus on different aspects of roadway safety and encourage drivers to make safe choices every time they travel.

As summer activities and holiday celebrations ramp up, roadway safety becomes even more important. Whether you're heading out on a road trip, visiting friends and family, or enjoying local events, remember to stay alert, buckle up, and drive distraction-free. Learn more about the [campaign](#) and how we can all *Be Safe Together*.

## Freedom to Choose Your Route

As we celebrate Independence Day and the freedoms we enjoy, we're reminded that transportation is all about choice.

At the Mobility Authority, we believe giving travelers options is key to keeping Central Texas moving. Whether you choose to take a toll lane to bypass congestion and reach your destination more efficiently, or prefer to walk, jog, bike, or roll along one of our Shared Use Paths, ***the choice is yours.***

If you choose to use a toll road, you can simultaneously choose to save money. When using an electronic tag on Mobility Authority roadways, commuters save 33% on tolls. Our agency accepts both in-state and out-of-state tag options so you can choose the tag that works for you.

## Transportation News: Move Together Challenge Returns

Movability's annual regional commuter challenge returns during the last week of August, giving participants the opportunity to earn rewards and be entered to win \$100 H-E-B and Amazon gift cards.

The challenge encourages commuters to explore alternatives such as carpooling, transit, biking, walking, and remote work. For those who choose to carpool, toll lanes can help save even more time by allowing travelers to bypass congestion while sharing the ride.

Follow [Movability](#) to learn more about registration details and get ready to join commuters across Central Texas in making transportation more efficient, sustainable, and rewarding.
