Protect Your Vehicle Wherever the Road Takes You

Your vehicle helps get you where you need to go. Whether you're commuting to work, running errands, or heading out on a road trip, taking a few simple precautions can help protect it from theft.

July marked Vehicle Theft Prevention Month, but these safety tips are worth remembering all year long.

Before you walk away, take one last look:

- Keep your keys with you—never leave them inside your vehicle.
- Make sure all windows are closed and your doors are locked.
- Double-check that you've removed any valuables or stored them out of sight.

Even when nothing valuable is visible, thieves may target the vehicle itself or its parts. Some of the most commonly stolen items include airbags, radios, wheel covers, and GPS units.

Additional ways to protect your vehicle:

- Install an audible or visible anti-theft device, such as a horn alarm, to help deter thieves.
- Consider an engine immobilizer or steering wheel lock.
- Use a vehicle recovery or GPS tracking system for added peace of mind.

Learn more about protecting your vehicle:

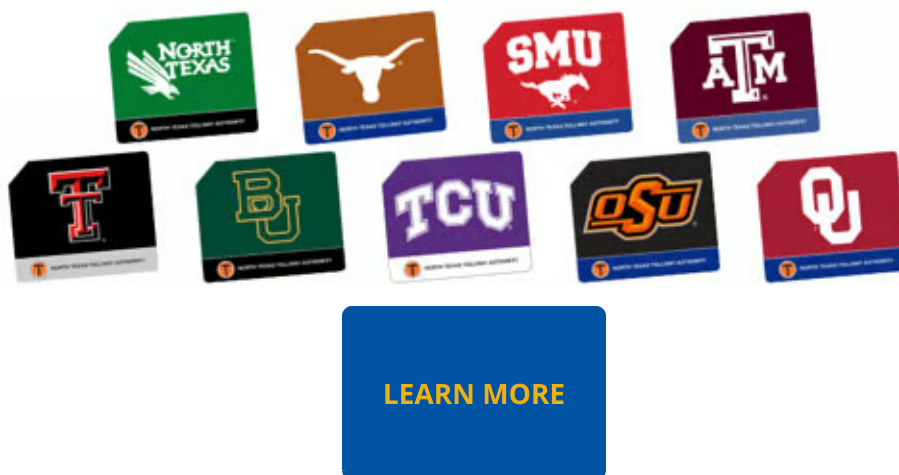

Rep Your Team. Get the Savings.

Football season is almost here, which means game days, road trips, and cheering on your favorite team. Before kickoff, make sure you're ready for the drive. When you open a TollTag

account through NTTA, you can customize your tag with a specialty sports team design so you can show your team spirit wherever the road takes you.

With an electronic tag, you'll also score these benefits:

- Save 33% on tolls compared to Pay By Mail.
- Skip paper bills.
- Keep moving on your way to the game.

Fueling Economic Connectivity

As Central Texas continues to grow, reliable transportation plays an important role in keeping people, businesses, and goods connected.

Roadways built with reliability and connectivity in mind help strengthen local economies, support employers, and connect communities across the region.
